

◆ CALL FORWARDING INSTRUCTIONS ◆

Line2 can forward your calls to as many as six forwarding numbers simultaneously, instead of, or after ringing your Line2 application.

The screenshot displays the Line2 web interface. At the top, there are navigation tabs: 'My Activity', 'Call Handling' (selected), 'Contacts', and 'Account'. On the left, a sidebar contains various settings: 'Overview', 'Blocked Callers', 'Do Not Disturb', 'Screening', 'Line2 Apps', 'Forwarding' (highlighted with a red box), 'Voicemail & Alerts', 'Auto Attendant', 'Extension Dialing', and 'Time Zone & After Hours'. The main content area is titled 'Forwarding Setup' and includes a 'Cancel' and 'Save' button. A toggle switch is set to 'On', with the text 'Calls not answered on the Line2 App are forwarded as set below.' Below this is a table for adding forwarding numbers:

Forwarding Numbers	Enable
<input type="text" value="Enter Number"/>	<input type="checkbox"/> Off
<input type="text" value="Enter Number"/>	<input type="checkbox"/> Off

Below the table, it states: **All lines will ring simultaneously**. To enter international numbers, start with + or 011. Calls forwarded to numbers outside the US & Canada will be billed at our normal international rates. Forwarded calls are governed by our Fair Use Policy.

On the right, the 'If Unanswered After Forwarding' section has two radio button options: 'Let remote voicemail answer' (unselected) and 'Snap back calls and send to' (selected). The 'Snap back calls and send to' option has a dropdown menu set to 'Line2 Voicemail'. Below this, there is a section 'If not answered in' with a dropdown menu set to '4 Ring'.

◆ CALL FORWARDING INSTRUCTIONS ◆

To enable call forwarding:

1. Set the Forwarding toggle switch to ON
2. Enter the forwarding numbers you wish to forward calls to
3. Enable or Disable the Forwarding Number
4. Establish where voice messages will be left (at the forwarding number or within Line2 voicemail)
